& coaches!**

ENVIRONMENTAL ZONE:

The city center of Utrecht (including TivoliVredenburg) is a designated environmental zone. Diesel cars are allowed in this environmental zone with emission class 4 or higher. Trucks and busses are allowed in the environmental zone with emission class 6 or higher. Please check your emission class before entering the environmental zone to avoid the risk of being fined.

IMPORTANT INFORMATION:

- In the basement of the venue there is an expedition area located for a maximum of six trucks. This area is in use for all the five halls, and therefore every truck needs to co-operate according the venue's plan. Loading/unloading goods on street level is not possible.
- Maximum height for the TivoliVredenburg expedition entrance is 4 meters / 13.1 feet / 157 inches.
- We have 32 ampère power available for trucks and coaches.
- It is forbidden to empty toilet reservoirs in the expedition hall.
- It is not allowed to stay overnight in TivoliVredenburg in trucks or coaches.
